MRS. JOHN BUCKLEY.

Her Death Yesterday Afternoon at Her Home on January Street.

Mrs. John Buckley died at her home on January street yesterday afternoon at 4 o'clock, after a lingering illness of many months.

In the last few days she declined rapidly and her loved ones realized that the end was near.

Deceased was Miss Mary Mullarkey, and was 29 years of age.

Her death was a sad one, indeed, leaving a little fourteen-months-old daughter bereft of a mother's loving care.

Mrs. Buckley was a good, Christian woman, a fond wife and mother, a true friend and kind neighbor, and her husband has the sincere sympathy of the community in his great loss.

The funeral will take place Thursday morning at 8 a. m. at St. Patrick's Church. Burial in the Washington Cemetery.

It took the flogging of affidavits by the leading distillers of Kentucky whisky is worth only \$8 per barrel, the State Board of Valuation and Assessment has reduced the valuation from \$10 to \$8 for the purpose of taxation. This shows the superior ignorance possessed by the learned Board members as to the value of property they never saw and know nothing about. The same intelligent Board that put the assessment price of whisky at \$10 per barrel, sits at Frankfort and puts a price on a great many other things—and with the same intelligence.

The Henry M. Stanley will pass down tonight for Cincinnati.

The Keystone State will pass down tonight from Pittsburgh.

The river at this point raised 9 inches last night, the market showing 37.7 and rising slowly.

The towboat Yellow Poplar, which is prominent on account of her late owners, always painting her with a yellow color, has been renamed the H. P. Lintworth. She is now owned by Pittsburgh parties.

The Ohio and tributaries are falling above. The Ohio at this point will probably reach the 40-foot mark, which is not high enough to inconvenience anyone here. Should a thaw and rain come upon this high water, however, there will be a more enough flood.

Congressman Kehoe has introduced bills to build an ice pier at Mayville, to complete improvement of this Big Sandy between Louisville and Chesapeake and to improve the Tag and Lonia forks of the Big Sandy in West Virginia and Kentucky.

Navigation on the Monongahela river was practically suspended yesterday on account of the flood. Steamboats were unable to get under some of the low bridges. The loss to shippers' interests was great. The Monongahela River Consolidated Coal and Coke Company will probably prove the greatest loss. A fleet of 80 empty craft, most of them coalboats, valued at about \$400 each, were torn from their mooring at Duquesne and swept down the river. Every one of them was loaded with coal. About twenty of them belonged to the combine. Many of the ships sank and upset. On account of the strike among towboat pilots, it was impossible to send the steamers after the fleets of empties to intercept them, all of the coalboats available Ohio River pilots being down the river on their boats.

Wen Babies Are Good Babies

MOST LITTLE BABIES DIE, either from bowel troubles or from diseases which they contract because they are in a weak and feeble condition from bowel troubles.

Mothers who are seeking the ideal and proper medicine to give their little ones for constipation, diarrhea, colic and simple fever will find LAXAKOLA the most reliable remedy.

It is the best and most effective laxative for children. BEST because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never gives or causes pain or irritation. BEST because it is sure and never fails. BEST because "Children like it and eat for it."

It is a dangerous thing to give little babies violent remedies that rack and rend their little bodies. DON'T DO IT—Give them LAXAKOLA.

A few drops can be given with safety to very young babies, and will often relieve colic by expelling the wind and gas that cause it, and it also will check simple fever, break up colds and clear the coated tongue.

Great relief is experienced when administered to young children suffering from diarrhea, accompanied with white or green excrement, from the fact that LAXAKOLA neutralizes the acidity of the bowels and carries out the cause of fermentation, aids digestion, restores restlessness, soothes and induces sleep.

LAXAKOLA is a gentle and safe remedy to use during all conditions of health of the infant and child, and is especially adapted to the treatment of the following ailments: Colic, flatulence, indigestion, constipation, diarrhea, fever, and all other ailments of the bowels and stomach.
